WHERE BUSINESSES LEAK MONEY

Your leads doubled. Your bookings didn't.

5 places leads disappear after they arrive.

The slow callback

✕ THE LEAK

A lead that waits hours for a call has usually gone cold, or gone to someone faster.

✓ THE FIX

An **instant alert** to the salesperson the moment a lead is assigned.

The flat list

✕ THE LEAK

When every lead sits in one long list, people pick who to call first, and the rest wait.

✓ THE FIX

A **queue that shows one lead at a time** and decides who’s next.

LEAK 3 OF 5

The missed call that ends there

THE LEAK

No answer, no message, no second try.

THE FIX

An **automatic WhatsApp message** when a call isn’t picked up.

LEAK 4 OF 5

One attempt and done

THE LEAK

Many leads need a second or third try. Without a reminder, nobody makes it.

THE FIX

Repeat attempts brought back on later days, without anyone remembering.

LEAK 5 OF 5

Junk mixed with real buyers

✕ THE LEAK

Spam and serious enquiries look the same in a list, so serious buyers wait too.

✓ THE FIX

Hot leads marked and called first.

THE 5 LEAKS, FIXED

Leads cost money every month. Don't lose them after they arrive.

THE LEAK		THE FIX
✕ Slow callback	→	✓ Instant alert
✕ Flat list	→	✓ One lead at a time
✕ Missed call	→	✓ Automatic WhatsApp
✕ One attempt	→	✓ Repeat attempts
✕ Junk mixed in	→	✓ Hot leads first
