OUR FUNNEL, STEP BY STEP

Every step between our ad and a paid advance has one job.

6 steps, 6 jobs. Here’s what each one is for.

The ad

ITS JOB

Filter before it attracts.

Most “bad leads” are a targeting problem, **not a sales team problem.** The ad is part of sales.

Price-shoppers

The form

ITS JOB

Collect what the meeting needs.

Business type, the main problem and revenue.
They pick a meeting time right there.

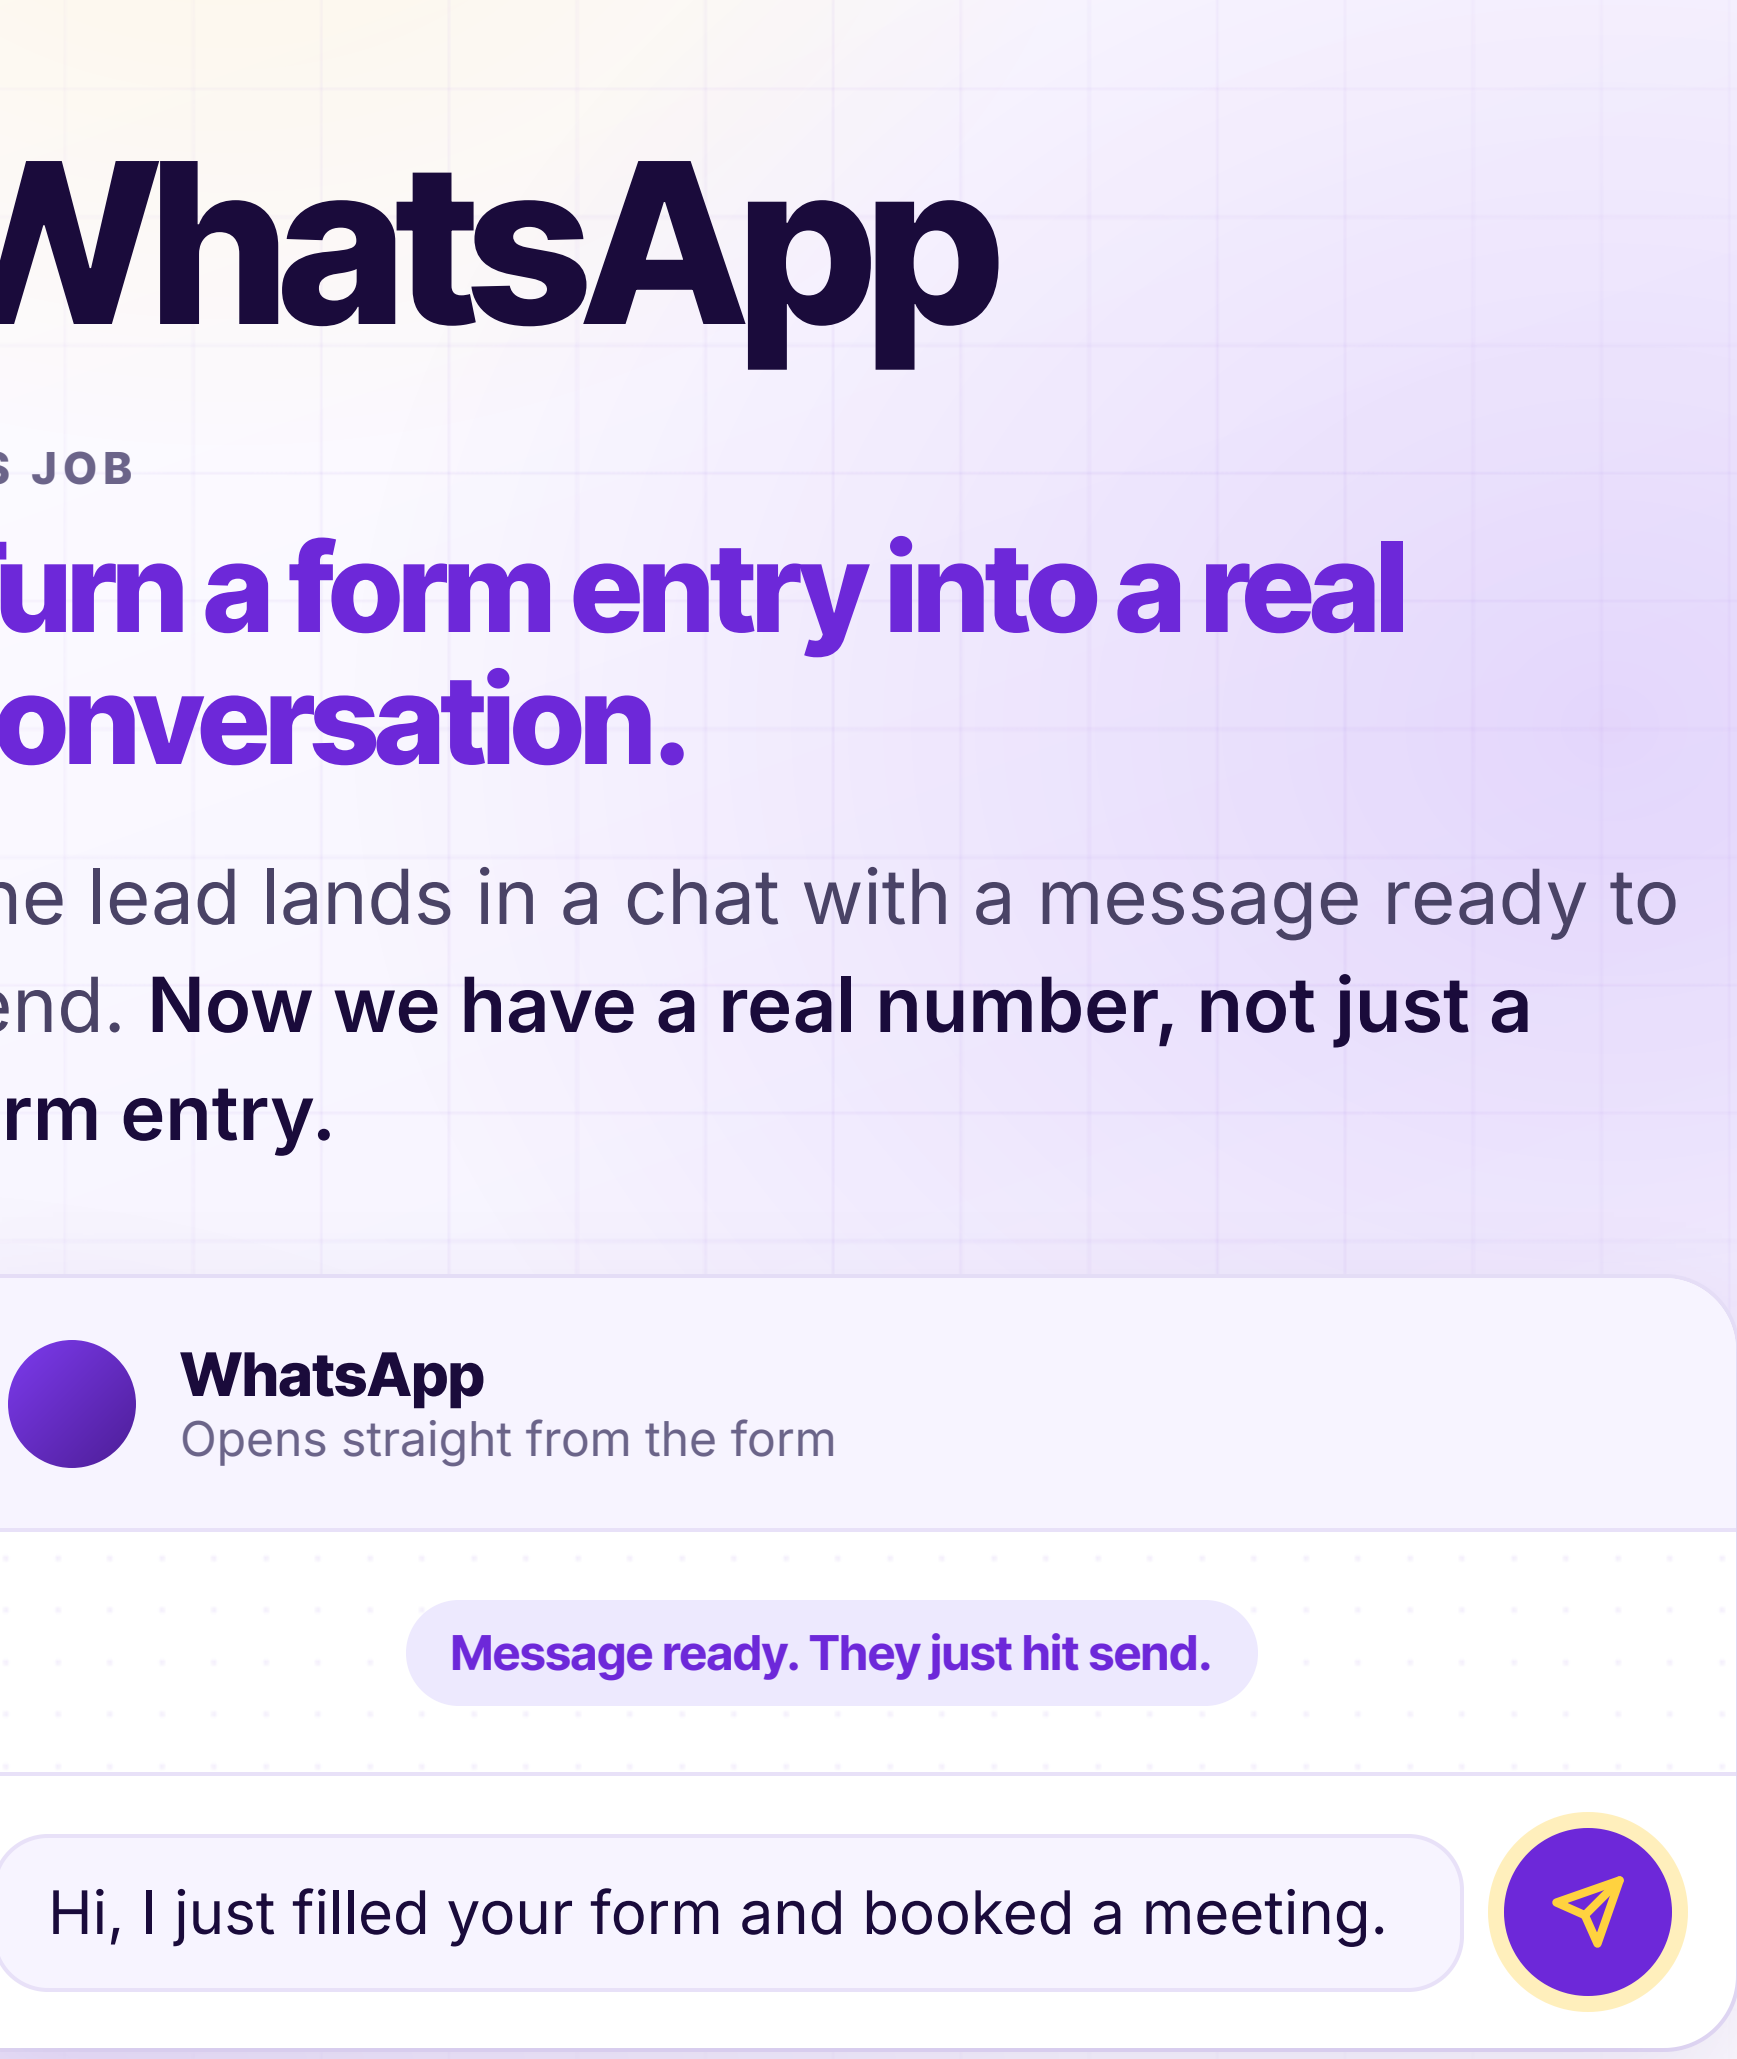

WhatsApp

ITS JOB

Turn a form entry into a real conversation.

The lead lands in a chat with a message ready to send. **Now we have a real number, not just a form entry.**

The 2-minute call

ITS JOB

Prepare the meeting.

We never repeat what the form already told us. **We ask what the meeting needs, and who makes the decision.**

Booking call — 2 min

- ✓ What does the meeting need?
- ✓ Who makes the decision?
- ✗ ~~Anything the form already told us~~

The 30-minute meeting

ITS JOB

Get a decision.

Their problems, proof from similar businesses, a demo, then the price. **It ends in a yes or a clear no.**

30 MINUTES, IN THIS ORDER

Their problems | Proof | Demo | **Price**

✓ Yes or ✕ A clear no

The advance

ITS JOB

Start the work.

Asked for on the same call as the meeting.
Paperwork and the build start after it.

1. **Advance paid**
   Before any paperwork
2. **Paperwork**
3. **The build starts**
