WHERE BUSINESSES LEAK MONEY

If we grow any bigger, everything that's barely holding together will break.

Growth doesn't break a business. It finds what was already broken.

✕ WHAT BREAKS → ✓ WHAT HOLDS

Swipe

Handing out work

✕ WHAT BREAKS

One person assigns every job by hand, and becomes the bottleneck.

✓ WHAT HOLDS

Jobs **assigned by the system** the moment they come in.

Bookings

✕ WHAT BREAKS

Two people book the same slot at the same time.

✓ WHAT HOLDS

A booking engine that **holds the slot** while someone is booking it.

Approvals

✕ WHAT BREAKS

Everything waits on one phone.

✓ WHAT HOLDS

Approval links people can act on, recorded in the system.

Files

✕ WHAT BREAKS

Links shared on WhatsApp. Nobody knows which version is final.

✓ WHAT HOLDS

One gallery or portal per job, every file in one place.

Reports

✕ WHAT BREAKS

Built by hand, so they arrive late.

✓ WHAT HOLDS

Reports **the system produces on its own**.

WHAT BREAKS, WHAT HOLDS

Fix it before growth arrives, and growth feels like more of the same.

WHAT BREAKS		WHAT HOLDS
✕ Handing out work	→	✓ Assigned by the system
✕ Double bookings	→	✓ Slot held while booking
✕ Approvals on one phone	→	✓ Approval links
✕ Files in chats	→	✓ One portal per job
✕ Late reports	→	✓ Reports on their own

Growing fast?
