WHERE BUSINESSES LEAK MONEY

I pay for five apps and none of them talk to each other.

5 connections we've built, old way and new.

1/7

Ad enquiries

✕ OLD WAY

Downloaded from the ads account and pasted into a sheet.

✓ NEW WAY

Lead-form enquiries **flow straight into the system**, with cost per lead.

Meetings

✕ OLD WAY

Someone remembers to send a reminder.

✓ NEW WAY

A booking sends **WhatsApp reminders 30 and 5 minutes before**.

Billing

✕ OLD WAY

Billing software on one shop computer. The data stays there.

✓ NEW WAY

Connected to the main system, so the data can be seen online.

Vendors

✕ OLD WAY

Order details retyped and sent as separate links.

✓ NEW WAY

Vendors get orders **through their own portal**.

Office phones

✕ OLD WAY

Missed calls are forgotten.

✓ NEW WAY

The call log flows in, and **missed calls become leads**.

OLD WAY, NEW WAY

Before app number six, connect the five you have.
